

ENDLESS APPLICATIONS

ENDLESS APPLICATIONS

Your genuine solution for frameless balustrading

Sky Glass™

An Australian Glass Group Product

SKY GLASS REMAINS STRONG EVEN WHEN IT IS

SHATTERED

Designed to remain strong and intact even when shattered; Sky Glass will not slump or fall from the opening.

Sky Glass outperforms traditional glazing finishes, monolithic toughened glass or standard toughened laminates in all weather applications.

Supplied with engineering design compliance to AS1288, Sky Glass can be designed to meet increased spans and loads, and is even suitable for balustrades without handrails.

UTILISE THE
FREEDOM OF
SKY GLASS TO
CREATE MORE
LIGHT AND SPACE
IN DESIGN.

Sky Glass delivers a clean, sophisticated and contemporary finish.

- + Flexibility of shapes
- + Reduced edge deterioration
- + Works with a variety of fixings and finishes
- + Engineered for use without handrails
- + Increased security – more difficult to break/remove
- + Variable thickness available, application appropriate
- + Reliable in extreme weather and marine environments

Consider Sky Glass in applications typically deemed beyond conventional glazing techniques:

- + Glass roofing
- + Frameless pool fencing
- + Free standing, handrail free
- + Balustrading indoor and outdoor
- + Infinity edges, aquariums, marine

WHEN SAFETY AND DESIGN
MATTER, SKY GLASS™
WORKS. PERFECT FOR
ARCHITECTURAL, INTERIORS
& EXTERIORS, COASTAL,
RESIDENTIAL AND THE MOST
DEMANDING COMMERCIAL
APPLICATIONS.

Sky Glass is custom manufactured, frameless glass
and the genuine solution for frameless balustrading.

Sky Glass builds on the properties of standard
custom laminates using innovative processing and
interlayer technology to create a premium product
superior in performance.

**Fall in love with the possibilities Sky
Glass offers the built environment.**
